

The Sweet Pea has all the good qualities of a perfect annual for general cultivation. It is of easy culture, growing in almost any soil or sunny situation, begins to bloom when small, and if freely cut the flowers will continue to develop for a long period. The flowers are of charming shape, rich and varied in color, delicate in texture, and all of the choice varieties offered are deliciously scented and borne on long stems, four or more flowers on each stem. There is a bewildering variety of named sorts, and to determine the most desirable sort in each color; the National Sweet Pea Society recently appointed a committee of expert specialists to select the very best varieties, and their report embraced the 16 named varieties I offer as the best and most distinct and beautiful of the entire list; you cannot, therefore, err in getting these finest varieties.

Avalanche, rich-fulled, pure white giant frills; best pure white.
Bonfire, soft cherry, white wings; huge frills well frilled; fine.
Fortune, rich indigo; immense finely waved flowers; outstanding.
Glen Eagles, true heavenly blue; big frilled long-stemmed frills.
Grenadier, intense Geranium-red; huge sun-proof, frilled frills.
Huntsman, sun-proof vivid scarlet; big, bold, 4 to stem frills.
Mary Pickford, lovely cream-pink with tan; huge, frilled, fine.
Olympia, vivid purple; glorious big frilled frills; robust, free.

Pinkie, clear, rose-pink; long-stem mammoth frilled frills; fine.
Sunset, rose, amber and gold; like a sunset glow; a choice sort.
Supreme, exquisite softpink; giant frilled long-stem frills; lovely.
Tangerine, improved; rich tangerine-orange, best orange.
Warrior, rich velvety maroon; big full-frilled, long-stem blooms.
Wembley, rich lavender suffused blue; extra in size and form.
What Joy, rich deep primrose; exquisite frills, the best yellow.
The Prince, intense glowing crimson; frilled; best, crimson. CLIMSON.

Sweet Pea Novelties

Bonnie Briar, hugerose-pink frilled frills, showing a glint of amber; the finest of all rose-pink kinds. Awarded Silver Medal by Scottish S. Pea Society- 16 s. 5c.
Eleanor Blue, the fascinating new shade; big waved frills, profuse, 4 or 5 to stem; will displace the s. 15 seeds less.
Little Bo Peep, dwarf (not a Cupid) 1 foot high, branching, for beds or pots; salmon-pink. 15 s. 5c.

Eileen, rich Begonia-rose with salmon shading to dazzling cerise; a beautiful rare variety.
Ramona, delightful coral rose with yellow and pink shadings blended to make an exquisite shade of Geranium-pink.

Lady Macbeth, dazzling spiral red with beautiful golden salmon shadings.
Sweet Briar, mammoth rich rose-pink, standards sparkling rosy-pink on a lovely white ground, toned to rich amber; a charming variety.

TOBACCO STEMS.—Chopped up, these are a first-class mulch, not only retaining moisture in the ground and enriching the soil, but is a reliable insecticide. Apply it to rows of Sweet Peas when they are a few inches high, and weave some into wire trellis. It is a sure protection against lice. Apply it around Asters to kill root lice. Spray infested plants with tobacco tea as hot as the hand will bear, or dip the plants to rid them of insects. Start seeds in a box or bed and transplant two feet apart. When in full bloom cut the stalks and hang up in a shed to cure. 1000 seeds of Insect-killing Tobacco Sets.
